Education

Jabalpur Engineering College, Jabalpur

Bachelor in Computer Science and Engineering

2021 – 2025

CGPA: 8.37/10

Technical Skills

Languages: English and Hindi

Coding Languages: C,Java(SE),Java(EE),JavaScript

Web Technologies: TailWind CSS,BootStrap,React,JDBC,Servlets,Spring,SpringBoot

Development Tools: VS code,Eclipse,Git,Github

Server: Apache Tomcat

Projects

TentWale | *Java(EE), SpringBoot, React, JavaScript, Tailwind CSS, MySQL | Git*

March 2025

- Engineered a dynamic and responsive website using Java, React, and Tailwind CSS, enabling users to effortlessly book tent items from diverse tent houses for any occasion.
- Leveraged Spring Boot, Spring, and Servlets to build a robust backend, supporting a 65% increase in booking capacity and related features..
- Delivered a seamless booking experience with real-time interactivity and responsiveness, boosting user engagement by 45%.

ParkEase | *Java, Spring, JavaScript, Servlets, BootStrap, MySQL | Git*

November 2024

- Developed a smart parking management system using Java, Spring, JavaScript, and Servlets, optimizing urban parking efficiency by 30% and reducing traffic congestion and emissions in real-time.
- Engineered a seamless user interface with Bootstrap, enabling responsive pre-booking and monitoring features, leading to a 25% increase in user satisfaction and app adoption.
- Implemented a robust MySQL database integration using Spring MVC architecture, ensuring secure and efficient data storage, real-time monitoring, and payment processing, achieving 99.9% system uptime.

Technical Discussion Forum | *Java, JavaScript, Servlets, BootStrap, MySQL | Git*

June 2024

- Developed a platform for technology-related discussions and answers, serving over 1,000 users and fostering active community engagement.
- Used JDBC to connect Java applications with MySQL, optimizing data flow and achieving a 30% improvement in database interaction efficiency.
- Crafted a highly engaging and interactive user interface for the discussion forum, seamlessly blending Bootstrap and JavaScript to deliver a compatible user experience that captivates and increasing user engagement by 25%.

Extra-Curricular Experience

Smart India Hackathon

25 September 2024

hackathon

JEC, Jabalpur

- It was a software and hardware based hackathon.
- Qualified for Smart India Hackathon,2024 for semi-final and was in top 5 among all participating team.

HackByte

5 April 2024

hackathon

IITDM, Jabalpur

- It was a software based hackathon where multiple colleges participated.
- Qualified for top 10 teams out of 88 participating teams.
- Delivered a cutting-edge project, achieving a 30% reduction in processing time through optimized software algorithms.
